FINGERS ONLY!

Use only your finger to touch the podium control panel or the computer monitor with the annotation overlay. Do not use a pen, stylus, etc. on the screens; do not clean or wipe screens!

Annotation Overlay

The annotation overlay feature allows you to write or draw on the computer screen with your finger (fingers only); what is written or drawn is projected onto the screen.

The computer screen can be tapped to display an arrow.

FINGERS ONLY!

Use only your finger to touch the podium control panel or the computer monitor with the annotation overlay. Do not use a pen, stylus, etc. on the screens; do not clean or wipe screens!
